

# Dreaming Differently: Planning the Transition to Adult Healthcare

A free virtual training for families who are raising children with significant intellectual or developmental disabilities and medical complexity

Join the SE Regional Center for CYSHCN for a free virtual presentation and conversation to help guide families through the transition from child-centered to adult health care systems. This presentation will introduce information and provide time for conversation about the many parts of health care transition. We will also provide helpful tools and resources.

By attending we hope that you will:

- ✓ Recognize the systems where transition will occur for your child
- ✓ Identify steps related to a successful transition to adult healthcare
- ✓ Find your stepping stones to actively engage in the transition process
